Project partners:

PROJECT PRESENTATION

The project “Cross-border Logistics: Partnership in Cooperation on Employment” (ROHU391 - INTERLOGISTICS) is a joint initiative of two cross-border partners, the Municipality of Ajak and the Halmeu Commune. The project main overall objective is to enhance the cooperation of local labour market actors in order to improve labour market capacity in the eligible cross-border area.

The following activities are expected to take place within the Project:

- increase logistics capacity, indirect support of local agricultural production by setting up two new logistics centers
- establishment of a professional advisory and training center
- organization of a joint series of events (job fair, training)
- joint labor market analysis
- developing an integrated development strategy
- creation and maintenance of an online labor market database creating and maintaining jobs

in the agricultural sector by the development of public services and agricultural infrastructure in the town of Ajak and village of Halmeu

Expected results of the project:

- 760 participants in local employment and training initiatives
- 8 job fairs in Ajak and Halmeu
- 2 joint surveys (one on each side of the border)
- 1 cross-border labor market forum in Ajak
- Organizing 2 events on the Romanian side, cross-border capacity building
- 8 conferences and information workshops in Ajak
- organization of 4 vocational trainings in the municipality of Halmeu
- 1 joint strategy and action plan
- construction of a new logistics center in Ajak, renovation of an existing warehouse
- 1 new logistics center in the village of Halmeu, including a cold store for vegetables and fruits

THE BRAND

LOGO

The AJ-HA logo is the most important element in making up the brand associations from the point of view of visual communication. The logo must not be recreated in any circumstances.

AJ-HA as the brand name is the first two letters of each **A**jak and **H**almeu locality names.

The colors of the logo represent the cooperation between the two: Ajak town(Hungary) and Halmeu commune(Romania) and also colour green represents the vegetables cultivated in Ajak and colour red the strawberries cultivated in Halmeu as local products.

LOGO SPECIFICATION

The elements of the logo represent a unit, which is defined as invariable.
The composition of the logo must not be changed.

The basic unit used for the definition of the logo composition is the width and height of the letter "A".

This measure is used to define the space between some of the elements as well as the clear space around the logo.

Conjunctions with other logos

LOGO USE

The standard logo / full colour version:

This version should be used whenever it is possible. Ideally it should be used only on white and very light backgrounds.

White and black logo / 1-colour logo:

For single colour reproductions white and black version of the logo should be used.

These versions should only be used whenever the full-colour version of the logo cannot be applied.

DONT'S

Do not use other colours than shown on page 11!

Do not disort the logo!

Do not rotate the logo!

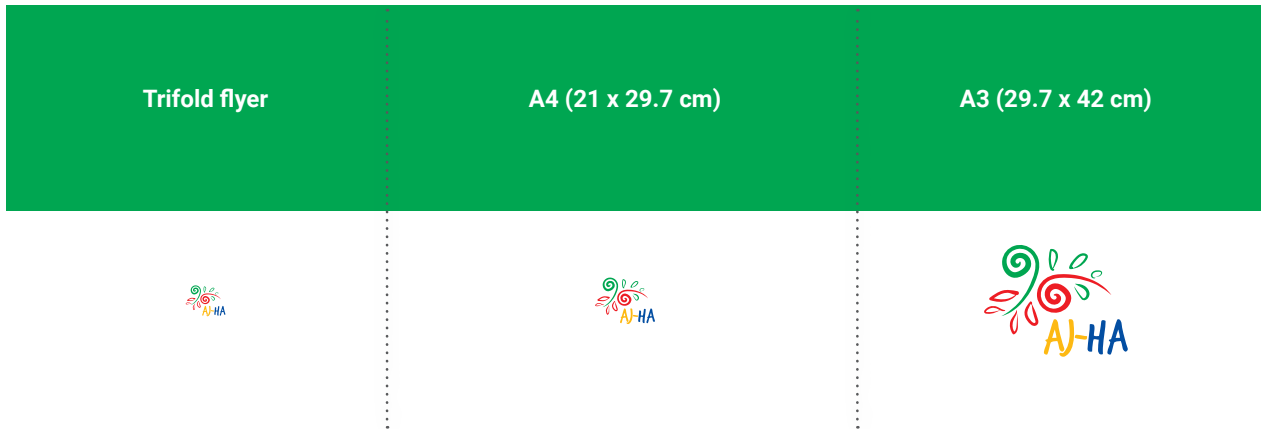

Do not add any effects!

LOGO SIZE

The minimum usable size of the AJ-HA logo is **5.25 x 4.08 mm** (this is the size used on the trifold flyer). In special cases (for the production of small items such as pens and pen-drives etc.), when there is no larger space for placing the logo, an exceptional use is allowed and accepted.

The size of the logo varies greatly according to the medium it is used in. Therefore, minimum logo sizes for print are specified.

LOGO COLOURS

CMYK colour codes will be used for all printed materials. RGB will be used on the web site (the HEX code can also be used) and other electronic applications.

CMYK: 100, 80, 0, 0
RGB: 0, 51, 153
HEX: #0c4da2

CMYK: 0, 100, 100, 0
RGB: 237, 28, 36
HEX: #ed1c24

CMYK: 0, 30, 100, 0
RGB: 253, 185, 19
HEX: #fdb813

CMYK: 100, 0, 100, 0
RGB: 0, 166, 81
HEX: #00a651

THE AJ-HA SYMBOL

The symbol in the project logo represents an infinite traditional connection, cooperation through the spirals and the traditional but also modern feel of it.

The colours are also symbolic, because red and green are complementary colours.

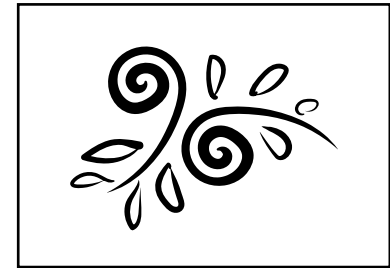

SYMBOL USAGE

Standard symbol:

The standard symbol is the full colour version. This version should be used whenever possible.

The full colour symbol can be used on white and very light backgrounds, as a decorative element or as a center piece (see examples in the 'Printed materials' chapter).

Negative symbol:

This version of the symbol should be used whenever we cannot use the color version of the symbol (see examples in the 'Promotional items' chapter).

FONTS

For AJ-HA programme brand and materials we use two different fonts:

- Minion Pro font for titles in printed and online materials.
- Calibri chosen for body text and other applications.
